

**We translate into more than 100 languages with our great team of 200 translators and proofreaders from all around the world!**

**Sunny Galandrex Translations** is an internationally operating translation company which was founded in 1997. We are one of the largest and most experienced translation companies in the Estonian market and serve numerous local as well as foreign business clients.

Sunny Galandrex Translations is a founding member of the Association of Estonian Translation Companies (AETC).

### ***Our services***

The main concept that we follow in translating and editing is that texts are always translated by a **specialist translator** (lawyer, engineer, economist, doctor, or other specialist) who has acquired the profession of a translator in addition to their main profession. Translations are reviewed by a language editor whose native language is the target language.

We provide the following services:

- **Translation**
- **Interpreting**
- **Proofreading and editing**
- **Sworn translations and notarised translations**

We also offer a number of additional services which facilitate the translation process:

- **Desktop publishing**
- **Translation quality assessment**
- **Termbase and translation memory management**
- **Printing and courier services**

In the course of 21 years, the following fields of translation have been established:

- **Law**
- **Economy and banking**
- **Technology and IT**
- **European Union**
- **Marketing and sales**
- **Health care**

Our everyday translations include different fields and documents, such as **electronics, vehicles and mechanical engineering, medical equipment, safety instructions, contracts, laws and regulations, court judgements, accounting documents, insurance and real estate documents, websites, marketing and advertising texts**, and much more.

## **The confidentiality of texts to be translated is guaranteed!**

We are the preferred translation partner for local as well as foreign business clients. We mainly export to Finland, Germany, Poland, Latvia, Russia, Italy and France.
